

Academia study visit in Italy

22.03.2010 - 26.03.2010

Lifelong Guidance in Italy

Purpose

Objectives of the study visit will be the collection of information about the working methods of the Italian guidance community, networking at national and European level, communication with the guidance community at local/regional level. Moreover, the aim will be to learn about best practises, systems and policies at regional and national level.

Content

Exchange of best practices in the guidance field, promotion of the different methods and the most important ICT tools used during educational and vocational guidance activities, update on the progress of the EU education, training and guidance policies, overview of the current lifelong guidance systems in Italy, implementation of the national lifelong learning strategies, national initiatives in career guidance.
