

# TRAINING COURSE

## „FORMAL + NON-FORMAL = IMPACT“

JULY 1ST - 9TH

**2014**

INFO PACK

## GENERAL IDEA

The Training Course “FORMAL + NON-FORMAL = IMPACT” is aimed at assembling teachers from different European and Eastern European and Caucasian countries to build mutual understanding and exchange experiences on how to combine formal and non-formal learning methods in the best way.

Using a wide variety of learning methods (group work, discussions, interactive presentations, creative workshops, study visits, etc.), the participants will strive to make the learning process as interactive, effective, fun, and creative as possible. The project will inspire teachers to bring these practices back home and improve their daily work with their pupil.

In many rural areas, children and teenager often do not have the possibility to go to youth centres or association, because they do not exist there. The only institution, in which youth work can be done is quite often the school. The teachers have to fill this gap and provide children and teenagers with all the important competencies, which are needed in today's working life. This training allows teachers to think outside of the box, to see their work in a different light and to find out more about effective and fun learning methods.
