Brokerage event and company missions RO-Energy, 11-13 June 2014, Bucharest, Romania

RoEnergy South-East Europe 2014 comprises specialized International Trade Fair & Conferences of Renewable Energy & Energy Efficiency in Constructions, where countries from East meet with the offer from the West Europe.

The main domains of the event are:

- Solar system - photovoltaic, solar thermal
- Bioenergy - biomass, biogas, liquid biofuels
- Water & Wind- hydropower, wind power, geothermal energy
- Cogeneration, Trigeneneration
- Alternative Vehicles and Fuels
- Hyenergy – hydrogen and fuel cells
- Consulting, Design, Services, carbon trading, R&D
- Passive House & Insulations

Clusters

Mapping the European ICT Poles of Excellence: The Atlas of ICT Activity in Europe by ITPS

The EIPE Atlas presents the results of the empirical mapping of ICT activity in EU and the ranking of the top EU NUTS 3 regions based on their performance in EIPE Composite Indicator, together with the ranks for the individual 42 indicators which contributed to the building of the EIPE composite indicators. The report offers a snapshot of the performance of regions that are identified as the main locations of ICT activity in Europe. It is meant to provide a comprehensive picture of how ICT activity is distributed across EU, where its main locations are. This information is expected to give a better overview of the EU ICT landscape, activity, actors in each location, to reveal their strengths/weaknesses.

WTO Trade Facilitation Agreement

This guide helps businesses take advantage of the WTO Trade Facilitation Agreement. The agreement simplifies customs procedures, allowing businesses to become more competitive. This jargon-free guide explains the provisions with a focus on what businesses need to know to take advantage of the agreement. It will also help policy makers identify their needs for technical assistance to implement and monitor it.

More... www.intracen.org/WTO-Trade-Facilitation-Agreement-for-web/

Research

Is your regional university as good as you believe?

A multidimensional, user-driven approach to international ranking of higher education institutions based on empirical data. In contrast to most well known rankings, U-Multirank not only focuses on research. It also takes into account other aspects like teaching and learning, research, knowledge transfer, international orientation and regional engagement. Furthermore no composite overall indicators are being calculated since those are seen as not very robust. Finally the methodology combines institutional ranking (of whole institutions) with field-based rankings that focus on particular academic disciplines or groups of programmes.

Horizon 2020, the master class, 26 June 2014, ESOF2014, Copenhagen, Denmark

In January, the European Union began its largest-ever research and innovation programme, Horizon 2020. Excellent science, industrial leadership, societal challenges - all are areas for new ideas and projects that the EU is funding. But the new programme is different from its smaller predecessors. How? Why? What guidance can the EC offer to applicants? This Q&A with the administrator for the programme, moderated by Science|Business CEO Richard Hudson, will take place during a partner-matchmaking session being organised by the Enterprise Europe Network, Vision2020, Science|Business.

Innovation, Competitiveness and Entrepreneurship

So you want to start a company? 24 June 2014, Copenhagen, Denmark

Come play the spin-out game. Lots of researchers and engineers do it these days: Starting a company based on their own research or inventions. The prize is great.

You can see your ideas become reality, saving lives or saving the planet – and you just might get rich along the way. But it's harder than it looks. You have to work out who owns the invention, who would want to buy it, how to get it to them, how much money it's going to cost to get going – and who, besides yourself, is going to be doing all this work. You could go broke. Or you could be wildly successful: Remember, Google was a spin-out from Stanford.

So, if you're interested in starting a company, come try it on for size first at this ESOF workshop, run by some experts in spin-out companies. The instructors are technology transfer professionals from across Europe.

Partner Search

Partner Search from Romania – Business Offer

Romanian company, Electroputere AIT SRL, producer of medium voltage and high voltage switchgear, would like to establish cooperation with companies from the EU, interested in Production/Manufacturing Activities of resin cast products and electro-insulating parts.

The company is equipped with a resin treatment plant with hybrid mixer and moulding clamp machine, with 2 production lines, that can process a various range of products/parts: epoxy resin insulated instrument transformers, support insulators, bushing insulators, electroinsulating cylinders, terminal plates for power transformers, various insulating parts.

The casting of various parts may be done either using customer's moulds, or using moulds designed and manufactured by our company. If you are interested to subcontract the installation, if you wish to place an order for some parts or if you are looking for a partner in a project, please contact us.

Contact: Ionut RIZEA, General Manager, Electroputere AIT SRL, www.electroputere-ait.ro, irizea@electroputere-ait.ro, office@electroputere-ait.ro, Mobile: +40 748 130180

Partner Search for optical domain of activity - MGM STAR Construct Romania, optical department

Our company has the capability to execute optical components: flat mirror, spherical mirrors; plano-parallel plates, filters, windows: round, squares, rectangular/other forms; spherical lenses, plan-concave, plan-convex, bi-concav, bi-convex, converging meniscus, divergent meniscus; right -angle prisms, roof prisms, penta prisms/with different angles; reticles obtained by photolithography-Chromium-based, chemical attack. We have technologies for processing optical glass.

We have sawing / radius grinding / polishing / centering / versatile machines with extensive experience working on such equipment staff. For optical coatings we dispose of vacuum deposition equipment, with resistive evaporation, e-gun,

sputtering, PECVD, for Anti-Reflex (AR, ARBL), Diamond Like Carbon (DLC coating) on Si and Ge, ITO, filters, mirrors.

Europe for Citizens call for partners

In the framework of the call for the project "Network of Towns", part of the "Strand 2: Democratic engagement and civic participation" under "Europe for Citizens" Program, we are looking for partners (local authorities, NGOs, research institutes, etc.) from the 28 Member States of the European Union, except Italy, EFTA countries, acceding countries.

The objective of the project is to encourage and facilitate citizens' wider involvement in the EU. We aim to increase their participation in current affairs by introducing a whole new dimension of participatory democracy, involving different national points of view on a specific issue relevant to the citizens' everyday life. This participation in the construction of an ever closer Europe will ultimately foster a sense of ownership.

Technology Request: Seeking UV light activated Chemical Compound solvent soluble

Deadline: 30/06/2014. Desired outcome: Solvent based liquid that will glow during the night if lighted with an UV led. Blacklight must come from a small led placed closed to the liquid (not in contact). LED should be powered by DC at 110 - 220V and must be CE conform. Chemical compound should have a low toxicological profile by inhalation.

Company leading European fast moving consumer goods group focused on home care markets

Details of the technology request: Seeking compound that will glow if lighted by an UV light. Source of light should be a led. Chemical compound must be soluble in paraffinic solvent leaving it completely transparent. It should be used as an additive to a current formulation in order to give an additional glowing effect. Molecule should be reactive in an area of UV spectrum where LED are available at a low cost

Contact: Ms Katarína Nagyová, LC Innoconsult, Szeged, Hungary, +36-30-4500041, nagyova.katarina@lcinnconsult.com

Technology Request: Novel Optical Retardation Film with High Glass Transition Temperature

Response due date: June 20, 2014. **Opportunity:** Supplier agreement, joint development, research funding, technology acquisition, licensing, etc. **Timeline:** Phase 1: Evaluation of technology. Phase 2: Further development/ optimization (>1 Year). Phase 3: Apply to client's production line

A multi-billion dollar electronics company, invites proposals for Developing Novel Optical Retardation Film for fabrication of Organic Light-Emitting Diode (OLED) Display. Optical retardation films are necessary to tune the optical properties of LCD, LED/OLED displays in order to improve color uniformity, improved viewing angles (among other advantages).

The desired retardation film will be or have:

- | | |
|-------------------------------------|---------------------------------|
| - A single transparent film | - Reverse wavelength dispersion |
| - High glass transition temperature | - Suitable for mass production |
- Performance requirements and characteristics are:
- | | |
|--|---|
| - Thickness: <50 µm | - Coefficient of Thermal Expansion (CTE): under 50 ppm/°C |
| - Thickness variation to within ± 5% | - Glass Transition Temperature (Tg): over 180 °C |
| - Light Transmittance: >89%; - Haze: <0.2% | - The wavelength dispersion shall be less than 10nm |

Even if the above conditions cannot presently be satisfied, proposals are welcomed if there is a prospect of achieving these with additional development support.

Contact: Ms Katarína Nagyová, LC Innoconsult, Szeged, Hungary, +36-30-4500041, nagyova.katarina@lcinnconsult.com

Partnership for H2020 ICT calls

I represent custom IT software development company „Algoritmu Sistemas“. We have 13 years of extensive experience in e-Government, Waste Management, Risk Management software solutions development. We are Microsoft and Oracle gold certified partners. Currently we are looking for a partner/s to participate in H2020 ICT calls. Our main areas would be e-Governance and Waste Management software development.

Contact: Povilas Motiejūnas, p.motiejunas@algoritmusistemas ; phone +370 686 50464

Looking for a cosmetic company with expertise in product validation colors / antioxidants "bio" developed

CNTA (National Centre for Food Technology and Safety) is looking for a SME and/or big company of the cosmetic sector with expertise in product validation colors / antioxidants "bio" developed, i.e., interests in the development of new formulations/ingredients with antioxidant effectiveness and/or with interest in natural pigments of red/orange/yellow colour.

from one of the countries belonging to the ERANET (Belgium, Denmark, France, Germany, Netherlands, Norway, Poland, Portugal, Romania, Russia, Turkey or UK). Our project has passed the stage 1 of the ERA-NET (ERA-IB) call. We want to complete our consortium planning to phase 2.

Technology Strategy Board targets £2.5m to address power challenges in electronic systems and the IoT

The UK's Technology Strategy Board TSB is launching a new collaborative R&D competition focussed on energy harvesting technologies. The innovation agency hopes funding of £2.5m will go towards solving the problem of powering wireless electronic devices, the millions of sensor nodes coming into operation with the Internet of Things (IoT).

In early June, the TSB launches a major competition with the aim of funding innovative projects using low-power energy harvesting technologies for autonomous electronics. Up to £2.5m is earmarked for investment for successful applicants.

Free briefing events in [Cardiff](#) on **5 June 2014** and [Glasgow](#) **18 June 2014**.

Electronic Components and Systems for European Leadership - ECSEL JU - "Expression of Interest" launched

ECSEL Joint Undertaking is a public-private partnership implementing the Joint Technology Initiative on electronic components and systems. The Regulation is expected to enter into force on 26 June 2014 and the **JU ECSEL** first call for proposals on 9 July 2014. The call will probably include only a Full Project Proposal phase, with a submission deadline expected to be on 10 September 2014.

In preparation of the ECSEL JU, the ARTEMIS JU and ENIAC JU together have published the possibility of "**Expressions of Interest**" for project ideas, in advance of the **Consortium Building Event** to be held in Brussels on 5 June 2014.

More... [Website ECSEL JU](#); [Registration for the Consortium Building Event \(Deadline: 2. June 2014\)](#)

2nd SAFERA Joint Call on the Theme "Innovating in Safety and Safe Innovations"

The SAFERA ERA-NET on industrial safety has launched its 2nd joint call for transnational, collaborative research projects concerning *Innovating in safety & safe innovations*. The call aims to foster collaboration between researchers from different countries in EU, from different scientific disciplines, in order to improve safety & the management of technological risks. The call topics are: Managing emerging risks. New technologies for safety. Funding countries participating in this call are the Czech Republic, Finland, France, Germany, Greece, Italy, the Netherlands, Norway, Serbia, Spain (Basque country).

More... <http://call.safera.eu/>

IMI 2 – indicative topics for the first call

In its first call, the Innovatives Medicines Initiative is expected to call for proposals in the following topics:

- Translational approaches to disease modifying therapy of Type 1 Diabetes Mellitus (T1DM)
- Discovery and validation of novel endpoints in retinal diseases
- RADAR: Remote assessment of disease and relapse

Short descriptions of each topic can be found on the [website of IMI](#). They enable researchers to develop ideas for projects and to form consortia before the calls are officially published on 9 July 2014.

Call for making science education & careers attractive for young people. H2020-SEAC-2014-1. Deadline: 2 Oct 2014

The action aims to support a range of activities, which will raise young boys' and girls' awareness of the different aspects encompassing science and technology in their societal content and to address the challenges faced by young people when pursuing careers in STEM. It aims at bringing both girls and boys into the scientific world via formal and informal teaching and learning and to orient them towards undertaking scientific careers.

Horizon 2020 Science with and for Society 2014 Calls. Deadline 2 October 2014

The aim of this programme is to build effective cooperation between science and society, to recruit new talent for science and to pair scientific excellence with social awareness and responsibility.

It allows all societal actors (researchers, citizens, policy makers, business, third sector organisations etc.) to work together during the whole research & innovation process in order to better align both the process, its outcomes with the values, needs, expectations of EU society. This approach to research & innovation is called Responsible Research & Innovation.

Call for making science education & careers attractive for young people, H2020-SEAC-2014-2. Deadline: 2 Oct 2014

The action assists the development of openly available curricula that embed all five RRI keys (societal engagement, gender equality and gender in research and innovation content, open access, science education and ethics), in a comprehensive approach for students, teachers, professional trainers and academic staff of Higher Education Institutions and other higher education establishments. Inspiration and good practices should be drawn from both the EU and third countries.

The first COST Open Call for proposals in Horizon 2020

Once the Horizon 2020 programme and the new evaluation and selection procedures have been adopted, the COST [Open Call](#) calendar will also be updated and will provide further details.

More... Stay up-to-date with the latest developments at COST by visiting the [Open Call](#) page on the COST website.

Marie Skłodowska-Curie Individual Fellowships (IF). Deadline 11 September 2014

The goal of Individual Fellowships is to enhance the creative and innovative potential of experienced researchers wishing to diversify their individual competence in terms of skill acquisition at multi- or interdisciplinary level through advanced training, international and intersectoral mobility. Support is foreseen for individual, trans-national fellowships awarded to the best or most promising researchers for employment in EU Member States or Associated Countries, based on an application made jointly by the researcher and host organisation in the academic or non-academic sectors.

Capitalising the full potential of on-line collaboration for SME. Deadline: 2015-03-10, Stage 2: 2015-08-12

To address the described gaps proposals should address one or more of the following aspects:

- develop and test new service designs for 'assistance to online collaboration for innovation' for SMEs in diverse sectors;
- make new services accessible for enterprises in sectors that are typically not yet benefitting from innovation support;
- develop and test a qualification profile, curriculum and training courses for staff currently providing brokerage services in established networks or SME agencies.

Europe 2020 Strategy, the European Semester

All Member states have committed to achieving Europe 2020 targets and have translated them into national targets, growth-enhancing policies. But only if the individual efforts of all the countries are coordinated/focused, can they result in the desired impact on growth. Therefore the EC has set up a yearly cycle of economic policy coordination called the European Semester. Each year the EC undertakes a detailed analysis of EU Member States' programmes of economic and structural reforms and provides them with recommendations for the next 12-18 months.

The European semester starts when the Commission adopts its Annual Growth Survey, usually towards the end of the year, which sets out EU priorities for the coming year to boost growth and job creation.

Energy

European Sustainable Energy Week

Launched in 2006 as an initiative of the European Commission, the EU Sustainable Energy Week, EUSEW has become a reference point for public authorities, energy agencies, private companies, NGOs, industry associations engaged in helping to meet the EU's energy, renewable & efficient energy, climate goals.

During the whole month of June, hundreds of [Energy Days](#) will take place across EU & beyond. Check the Energy Days happening in [Brussels](#) or in [your region](#), and [register](#) for the conference, workshop, guided tour or exhibition.

More... <http://www.eusew.eu/>

EU Sustainable Energy Week 2014, High Level Policy Conference (HLPC), 24-26 June, Brussels

Registration for the [High Level Policy Conference \(HLPC\)](#) is now open! The HLPC includes some 30 sessions on renewable energy, energy efficiency and clean transport. Sessions are organised both by Commission services, and by external stakeholders (industry associations, networks, NGOs, media). Participation is free of charge.

Registration is open until 8 June 2014. We advise you to register early, in order to get a seat in the conferences of your choice. Have a read of the [programme](#), and create your [EUSEW profile](#) to register.

More... http://www.eusew.eu/component/see_eventview/?view=see_eventview&mapType=hlpc&Itemid=150

European North Sea Energy Alliance @ EUSEW, 24 June 2014, Brussels

The ENSEA consortium invites you to join the 'Launch of the ENSEA Research Network' event during the European Sustainable Energy Week in Brussels. ENSEA partners will take you on a journey along the 'Lighthouse' themes that have been identified within the ENSEA region so far.

We will discuss what influence can be achieved in regard to North Sea Energy System Integration developments and signal what this can mean for businesses in the region?

More... <http://www.ensea.biz/>

Adoption of the study on energy dependence & Communication "European Energy Security Strategy"

The EU's energy dependence is of course not new. But it did gain an added dimension in the light of recent geopolitical events, i.e. the crisis in Ukraine. Temporary disruptions of gas supplies in the winters of 2006 & 2009 already provided a wake-up call for the EU, underlining the need of infrastructure development, increased cooperation and of a common European energy policy. Since then, the EU has done a lot to strengthen its energy security in terms of gas supply. However, the work is not completed yet, further steps are needed.

Against the background of the developments in Ukraine the EU Council put a strong focus on energy security, invited the EC to prepare an in-depth study of energy security, a comprehensive plan to reduce import dependence for the [EU Council](#).

More... http://ec.europa.eu/energy/security_of_supply_en.htm ; http://ec.europa.eu/energy/2030_en.htm ; <http://ec.europa.eu/avservices/video/player.cfm?ref=I089899> ; <http://ec.europa.eu/avservices/video/player.cfm?ref=I089900>

Urban Mobility / SMART Cities

Innovative City Convention with B2B meetings, Brokerage Event, 25 June 2014, Nice, France

The third edition of the "Innovative City Convention" will be dedicated to the smart & sustainable cities, and the urban integration of technologies & services. The aim of that brokerage event is to bring together private & public players, in order to create new services / new technical & communicative interface solutions.

Participants invited: Technology & product providers, investors, promoters, architects, development agencies, planning & urban authorities, public services entities, municipal associations, public & mixed economy companies, clusters & federations, R&D, academia, technical centers... These technical and communication infrastructures include:

- Energy management and efficiency
- Environment (water & waste)
- Transport and mobility
- Health
- Building construction and renovation
- Security and safety

Events

18th International Conference on System Theory, Control & Computing, 17-19 October 2014, Sinaia, Romania

ICSTCC 2014 aims at bringing together under a unique forum, scientists from academia, industry to discuss the state of the art, the new trends in system theory, control, computer engineering, and to present recent research results, prospects for development in this rapidly evolving area. ICSTCC 2014 is technically co-sponsored by IEEE Control Systems Society. The Proceedings will be published in IEEE Xplore Digital Library and will also be submitted for indexing in Thomson Reuters Conference Proceedings Citation Index (formerly ISI Proceedings).

3rd Annual Forum of the EU Strategy for the Danube Region, 26-27 June 2014, Vienna, Austria

The Annual Forum is the main event of the year for the EU SDR, assembling its stakeholders from the whole Danube area to give strategic direction, exchange and showcase opinions and experiences, and discuss vital questions of the Strategy's prospects and challenges. The Participation Day will merge the events of the stakeholder meetings of the PA 9 and PA 10 of the EUSDR, with the closing conference of the Danube River Show Project.

The Conference will enable with a new format the international civil society, local actors from the 14 EUSDR countries to meet, exchange views, perceptions among each other, to meet, discuss in-depth with EU and national decision makers.

Guide To Getting A Job Over 50 and Free webinar

5 Simple Tips To Beat Age Discrimination, June 10, 2014 at 1PM Eastern (New York Time)

If you're over 50 and in the job search, you may be encountering a few challenges. Maybe you haven't job searched in a while, or maybe you are experiencing some age bias, or employers telling you you're "too qualified" for the job. The good news is that because you're over 50, you have a few advantages in the job search that younger workers don't have.

And it's easier than you think to overcome the obstacles in your way.
