## Research

### Future research directions for collective entrepreneurship in developing countries: a SME perspective

Most of the current research on entrepreneurship is focused on developed countries and less has been written about the changing market conditions of developing countries. The aim of this paper is to focus on how small and medium-sized enterprises (SMEs) in developing countries are encouraging an entrepreneurial spirit in their business environment. By highlighting the importance of fostering collaborative entrepreneurship in developing countries a number of future research suggestions are espoused.

### Regional Innovation Hubs, the US Choice for Reviving Manufacturing

President Obama has proposed building the [National Network for Manufacturing Innovation](#), consisting of regional hubs that will accelerate development, adoption of cutting-edge manufacturing technologies for making new, globally competitive products. Over the last two years, he has acted to jumpstart the network by launching four innovation hubs, initiating the establishment of four more, all by executive order while awaiting congressional action.

Individually and together, these regional hubs - public-private partnerships called Institutes for Manufacturing Innovation - will help to strengthen the global competitiveness of existing manufacturers, spur new ventures, boost local/state economies

### Bridging the sustainability gap

This MIT SMR article highlights a critical challenge with companies trying to position the value of sustainability to investors. Better linkage of sustainability achievements to mid- and long-term success metrics for corporations are needed. Sustainability is very much about future value of the companies. Measuring sustainability's impact on revenue, productivity and risk would speak to mainstream investors.

## Urban Mobility / SMART Cities

### The Urban Mobility Package

With the Urban Mobility Package, the Commission reinforces its supporting measures in the area of urban transport. The central element of the Urban Mobility Package is the Communication "[Together towards competitive and resource efficient urban mobility](#)". It is complemented by an [annex](#) that sets out the concept of Sustainable Urban Mobility Plans, four Staff Working Documents on [urban logistics](#), [urban access regulations](#), [ITS solutions in urban areas](#), [urban road safety](#).

### Webinar focused on Green Vehicles for Urban freight delivery, 24 July 2014, 15h00 - 16h30 CET

Urban Freight Logistic needs to be reconsidered by introducing, some restrictive measures for a more efficient freight distribution, and new "green" vehicles more suitable for historical city centres and humanised areas.

The webinar, will present 3 case studies and discuss more in detail of cargo bikes for last mile delivery as well as of regulatory measures and incentives for zero emission city logistics. The participation is free, you just need to register.

### EU-Russia Researchers' Mobility Forum, 25 September 2014, Bruxelles

The focus of the EU-Russia Researcher's Mobility Forum will be partnership in science through mobility.

To illustrate the benefits of, and opportunities for mobile researchers, the event will showcase success stories from the Marie Skłodowska-Curie actions, a programme set up by the EC to support researchers in all phases of their careers, in all scientific disciplines, to improve their working conditions, to foster mobility across borders/sectors.
